HOW TO USE THE TELEPHONE

Always obtain the correct telephone number from the directory before you make a call.

If the person you wish to speak to is not listed in the directory, call "Information."

Speak slowly, clearly and directly into the telephone, with your lips about one inch from the mouthpiece, so that you will not be misunderstood.

To recall the operator on a connection, move the receiver hook up and down slowly three or four times.

Do not hang up the receiver until you are through with the connection, as this gives the op-erator a signal to disconnect you.

When your telephone is not in use, always keep the receiver on the hook; otherwise your line will be out of order.

Answer your calls promptly. Failure to do so keeps the calling party waiting and may result in the loss of a message.

In answering a call, say for example, "Mr. Jones speaking" or "Smith & Co., Jones speaking." This method of answering identifies you and saves time. It is desirable to answer calls in this manner both from business and residence telephones.

When changes are made in telephone numbers used on stationery and in advertising, they should be corrected as soon as possible so that persons calling may reach you promptly.

LONG DISTANCE SERVICE

To make a long distance call, ask the operator for "Long Distance." When "Long Distance" answers, give her your name and telephone number and the details of the call, including the number of the desired telephone, if you know it. "Long Distance" will acknowledge your call and if the distant town can be reached promptly you will be asked to hold the line. If not, you will be informed that you will be called by the operator. Then hang up the receiver. receiver

Different rates apply for the different classes of long distance calls. Information regarding the various classes and how each class can be used to the best advantage follows:

A Station-to-Station Call should be when you will talk to anyone answering the tele-phone called, or when you feel that the person with whom you wish to talk, can be promptly summoned to the telephone by the person answering. An example of the proper way to place a station-to-station call is to say to the operator, "I want to talk with anyone at John Smith's telephone at Redmond, Iowa." (Give the telephone number, if known, or the street address.)

Rates for station-to-station calls are lower than for person-to-person calls because less operators' labor and less use of the long distance lines and equipment are required to complete them.

Evening Rates apply on station to station calls on which conversation begins between 7:00 to 8:30 P. M. during which time the charges are about 25% less than the day station to station rate. This reduction applies only when the day rate is 40c or more. The minimum reduced rate is 35c.

Night Rates are in effect on station-to-station calls on which conversation begins between 8:30 P. M. and 4:30 A. M. during which time the charges are about one-half the day station-to-station rate. This reduction applies only when the day rate is 50c or more. The minimum reduced rate is 35c.

A Person-to-Person Call should be made when you wish to talk with a specified person. An example of the proper way to place a person-to-person call is, to say to the eperator, "I want to talk with John Smith at Redmond, Iowa." (Give telephone number if known, or the street address.) The rate for this class of service is somewhat higher than for station-to-station calls. It requires more operators' labor and a greater use of the long distance lines and equipment to locate the specified person and summon him to the telephone.

An Appointment Call is made when you arrange to talk with a specified person at a designated time. The rate for this class of service is the same as for a person-to-person call.

Messenger Calls—When it is necessary to send a messenger to summon the person called to a telephone, it is a messenger call. The rate for this class of call is the same as for a person-to-person call, plus the messenger charges.

Reversal of Charges—Charges may be reversed on all classes of long distance calls at any time without extra cost except on station-to-station calls on which the rate is 20c or less, which take a slightly higher rate when sent collect.

Report Charge —A report charge is made on uncompleted person-to-person, messenger and appointment calls when failure to establish the connection is due to no fault of the telephone company. A report charge is also made on reversed station-to-station calls when the party answering at the called telephone refuses to accept the charge and as a result the call is not completed.

The report charge is about confourth of the statement of the statement charge is good on the statement charge in the statement charge is goo

and as a result the call is not completed.

The report charge is about one-fourth of the station-to-station day rate. This charge is made to cover a part of the expense of the operators' time and the use of long distance lines and equipment in an effort to complete the call.

To Obtain Rates to any place, call "Long Distance." If you want to know the charges on a call at the close of your conversation, notify the long distance operator when you place the call. Our Manager will be glad to give further information regarding our long distance service. Please feel free the call worm him

Mrs. Preamble Reminds Her Husband of the Advantages of Telephoning Ahead!

"Well, here we are!"

"Yes, here we are and they're not home ... just as I thought ... but you wouldn't telephone! Etc. . . . etc."

A trying situation for any husband . . . but one which can easily be avoided.

Make your next trip pleasant and comfort-securing by calling by "Long Distance" those you intend to visit. Remember, too, that hotel reservations can be secured by telephone.

Isn't there someone you would like to talk with now? An out-of-town call is the nicest sort of remembrance for every occasion . . . anniversaries to be remembered . . . friends convalescing . . . children away at school and feeling homesick . . . birthdays coming . . . keeping family ties alive.

You can reach out-of-town friends by telephone almost as quickly as in-town friends, especially when you give the long distance operator the number of the telephone you are calling. Long distance charges are surprisingly low.

Morning's work half done . . . children off to school . . . baby bathed . . . kitchen cleaned . . . a minute off to write Mae an over-due letter . . seems I never get it done . . . Where's my pen? . . . there's the door bell . . who's there? . . . the ice man . . . well, what's the use . . I'll write tomorrow.

Woman's work is never done . . . friends are neglected for lack of writing time. But this need not be so, for before you've blotted the salutation you can be chatting by Long Distance telephone with friends anywhere.

Women nowadays are keeping in touch with distant friends and relatives by telephone just as with friends in town. It's a great tonic. Try it.

The charges for long distance service are surprisingly low, especially when you will talk with anyone available at the telephone called.

SHELDON-MUNN HOTEL BUILDING

After all the Chamber of Commerce reflects only the attitude of its members and the community in general. The Chamber will show results exactly in proportion to your degree of interest and activity.

The officers of the Ames Chamber of Commerce are jubilant, for thus far this year the organization has made material progress by being the hub of our community activities. You can expect big developments in 1929 as indicated by the manner in which the activities of the various committees are being handled. The possibilities and the progress of an organization of this character are unlimited and its accomplishments can be achieved only through the concerted efforts of its membership in the realization of the tremendous importance of the work to the community as a whole.

The progress made in indeed gratifying to the officers and the board of directors. We desire to commend the membership friends for your loyalty to this organization, whose main purpose is to develop the city you are justly proud to call your home.

Phone 241 SERVICE

You Can Get Help Quickly With a Telephone

"In case of fire, accident, or sickness you can get help with a telephone in just half the time," says a South Dakota farmer.

He knows that a telephone on the farm is worth having just for emergencies.

But service in emergencies is a small part of the telephone's job. It is used for buying and selling, getting prices, ordering repairs and gathering men for threshing and silo filling. It saves trips and supplies means for chats with neighbors and for other business and social purposes.

Before You Move Arrange for Telephone Service

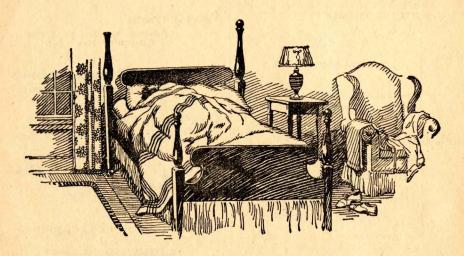

During moving season, the number of telephones which must be installed is much greater than at other times of the year.

If you are going to move, please notify our Business Office as soon as you can. This will assist in having your telephone service ready in your new location.

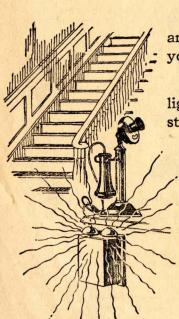

Even though a telephone already is in place, wiring has to be done in the central office, the telephone must be tested, accounting, directory and information records have to be changed, and other work performed.

When An Important Call Comes for You at Night

How convenient it would be if you had an extension telephone near at hand where you could answer those night calls.

No more groping in the dark for the light switch—no more racing down the stairs and then a long climb back.

An extension brings the calls to you for a few cents a day. Just call our Business Office and have one installed.
